

ABOUT ME

I'm an experienced Android Developer skilled in Java, Kotlin, Retrofit, Jetpack and all other flashy new (and old) things. I love programming and I'm glad i was fortunate enough to combine my hobby and a job into one.

Apart from programming i love spending time with my fiancée and our 3 cats, making model WW2 airplanes and going out into the nature away from civilization :)

SKILLS

| | |
|-----------------------------|----------|
| ANDROID | 8 years |
| KOTLIN | 2+ years |
| JAVA | 8 years |
| DI (KOIN, Dagger 2, KODEIN) | 5 years |
| COROUTINES | 2 years |
| SQL | 8 years |
| NoSQL | 5 years |
| GIT | 8 years |
| .NET | 5 years |
| PYTHON | 1 year |
| RxJava | 3 years |

SENIOR ANDROID DEVELOPER

WORK EXPERIENCE

CYPHER

Dec 2014 – present

Clients/employers: app: country: emp. duration

Teltech – part of IAC (Tinder, Match.com) family: RoboKiller: USA: 1.6 years

Kamino: Global.ID: EU: 6 months
Impaddo: B2B application: EU: 1.9 years

Wolkswagen Subsidiary: Local events/discounts app: EU: 1 year
+ far to many to list here

SIEMENS

Apr 2014 – Jan 2016

STARNET

May 2013 – May 2014

MICROSOFT

Jul 2011 – Jun 2012

Senior Android Developer / Team Lead

- Again a slight career shift - was learning Android in my spare time
- Worked on a plethora of applications for clients around the world - both B2B and PlayStore apps
- Had roles both as Team Lead and a Senior Android Dev within companies I've collaborated with
- 100% Remote (and not looking to change that)
- Preferred Android stack: Kotlin, RoomDB, Retrofit, MVVM, Koin, LiveData, Coroutines, Mockito
- Most used Android stack: Kotlin, RxJava, Dagger2, MVVM, Retrofit, Espresso, Mockito

Senior Java Developer

- Career shift - was learning Java in my spare time
- Designed, implemented and maintained features for a robust monitoring and charging system, in use by large telecoms (T-Mobile, Verizon, etc..)
- Used Scrum methodology
- Technologies used: Java, SQL, Python

.NET Developer

- Worked on various desktop applications (various CMS solutions)
- Designed, implemented and maintained features across multiple different applications
- Technologies used: .NET (C# and VB), MSSQL, JavaScript, DevExpress

.NET Intern

- Worked on internal applications
- Technologies used: .NET, MSSQL, Windows Phone SDK, JavaScript

Education

FACULTY OF ORGANISATION AND INFORMATICS

2009. – 2014.

CIVIL ENGINEERING

2001. – 2015.

Bachelor of Computer Science
Information Technology

High School Diploma

Note:

I'm only open for fully remote positions.

You can find my code samples on GitHub. Newest repo is always the closest to the way I'm writing code at the moment.

I'm happy to do take home assignments related to Android – always love to explore some new tech/lib while doing these.

If your interview process includes solving University level algorithmic questions, please reject my application.
